EXCORE REAMING SHELLS

What makes up your drill string?

EXCORE LINE OF PRODUCTS

Introducing our new improved Heavy Duty Reaming Shells.

20% LONGER LIFE

Our new reaming shells have a proven longer life span of up to 20%. We have introduced a new range of Heavy Duty (HD) reaming shells with an increased life span. Offered in 2 versions: Standard - for non-abrasive formations and Full Hole - for abrasive formations. The new shells have a similar surface set design but with modified gauge protection and an increased number of diamonds - your production just went up!

The new reaming shells are available from stock.

Please contact your nearest Atlas Copco sales representative.

SS - Surface Set type (natural diamonds set in pattern)

FH - Full Hole type (shell blank with flush grooves & larger outer diameter to to serve long time in very abrasive or broken formations)

OS - oversized version to be used with oversized bits

2-RING/3-RING - longer versions with 2 or 3 diamond rings for better core barrel stabilization & minimizing bore hole deviation

HD - Heavy Duty (improved design)

Sustainable Productivity

We stand by our responsibilities towards our customers,
towards the environment and the people around us.
We make performance stand a test of time.
This is what we call - Sustainable Productivity.
